

A Child's Place

COMMUNITY IMPACT PROJECT SNAPSHOT

DELIVERED BY AAA CAROLINAS

> This relationship Apparo brought together was special. The volunteer team provided expertise that we would not have had without this project. Having this new tool will propel us forward as we enter year 2 of our strategic plan. - Shantiqua Neely, Executive Director, A Child's Place

Increasing Effectiveness of Service to Homeless Children

A Child's Place works to erase the impact of homelessness on children and their education, working in partnership with the public schools to identify, enroll and work with children and families who are in crisis. AAA Carolinas assisted A Child's Place in selecting a software application that will allow the organization to fully manage their cases in one system. Their previous system was custom built and difficult to use, maintain, conduct reporting and make system changes. The new system is user friendly for their staff and will create greater efficiencies and allow for easier, more effective reporting and communication.

Nonprofit Team: Kim Caldwell, Erin Morris, Delana Murdock, Shantiqua Neely

Volunteer Team: David Holmes, Rob McCloskey, Raja Musunuru, Ashley Pace, Sonny Rivera

ANTICIPATED IMPACT

- Provides access to data trends and results allowing for more information to tell their story to potential funders and to understand how best to grow their organization
- Reduces manual tracking/entry of data which decreases the risk of data errors and reduces time required to conduct monthly tasks by staff members
- Increases operational efficiencies which allows staff members to better engage clients

> The project was very fulfilling. What made it so special is that we got to be a part of the mission of A Child's Place. -Raja Musunuru, AAA Carolinas CIO & Project Volunteer
