

Thompson Child & Family Focus Services

COMMUNITY IMPACT PROJECT SNAPSHOT
DELIVERED BY MORGANFRANKLIN CONSULTING

AN AWESOME RESOURCE

"Matt is an awesome resource. *He understands real world implications of implementing new technology but also understands how we can accomplish tasks with tools that are relevant for Thompson."*

Cody Thomas, Thompson IT Director

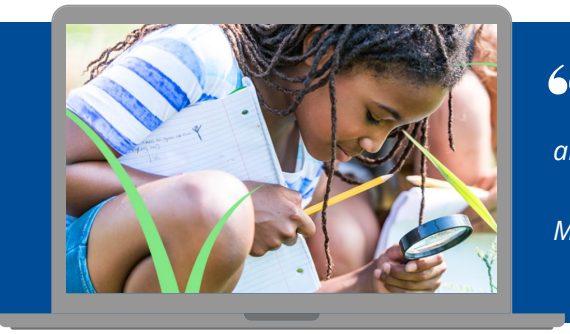

Providing clinical and prevention services for children and families across the Carolinas

Problem: Thompson leadership recognizes that a solid technology plan is a priority in moving the organization forward and aligning to their strategic vision and needed a partner to review their current technology framework and policies.
Solution: Apparo matched Thompson with skilled volunteer Matt Campbell from MorganFranklin Consulting. After reviewing Thompson's current technology framework, infrastructure and policies, Matt documented technology recommendations and provided Thompson with a technology roadmap that will allow the organization to work more securely, efficiently and effectively in both the short and long term.
Nonprofit Team: Laura Stein, Cody Thomas
Volunteers: Matt Campbell

- Less interruptions in client services
- Implementation of improved security measures
- Improved staff satisfaction

ANTICIPATED NONPROFIT + COMMUNITY IMPACT

As a result of this Community Impact Project, Thompson will allow staff to work more efficiently, experience less downtime due to technology issues and provide the clients with a more seamless service.Efficiencies gained will allow the IT dept time to prioritize technology projects that will ensure the proper framework is in place to support organizational goals to increase reach and services provided. It will also allow IT staff more time to be proactive in managing maintenance tasks and enhancing organizational security.

LOVE BEING ABLE TO GIVE BACK

"*I was happy to have been a part of this. I love what Apparo does and I love being able to give a little bit back."*

Matt Campbell, Project Volunteer, MorganFranklin Consulting
